

Net wrap – tried and tested premium quality

- 3000 m guaranteed runnage
- combination net for 123 - 125 cm machine mountings
- very good spreading ability over all common widths
- high tensile strength of the warp threads
- 12 months UV-stable
- core length: 1257 mm
- core inner diameter: 76 mm
- net widths: 1240 mm +/- 10 mm
- minimum weight: 31.86 kg
- weight per running metre: at least 10.5 g
- breaking strength: at least 270 kg
- breaking strength warp thread: at least 63.05 N
- warp threads: 42
